

This Form 99 is being filed to provide supplemental information to the mid year report filed by the Louisiana Reform PAC on July 31, 2007.

The Louisiana Reform PAC is a very small organization that relies heavily on volunteers. All of the administrative expenditures incurred during the first half of 2007 have been included on the mid year report. The PAC does not have a separate office and therefore does not incur any rent or utilities. There are currently no employees of the PAC. Any services provided to the PAC that are not provided by volunteers, are provided by independent contractors.

There were no in-kind contributions of goods or services to the PAC between January 1, 2007 and June 30, 2007.

Respectfully submitted on July 31, 2007.
